HOME PAGE :

I want a photo that partially covers the upper part of the page cf like Perrotin homepage but a little bigger maybe, and like our current website (i mean the size of the photo)

<https://galerienicolasflamel.com/>

Arrows on the left and the right of the photo like perrotin homepage

<https://www.perrotin.com/>) but the color of the arrow would be a lighter grey

And the caption will be centered on the middle and below the photo, not on the photo

I wanted it to be on the picture but as the caption doesn't change and is static I think it might not be harmonious if it is put on the picture/

Optional :

(Maybe we can add little explanation text about the gallery and the permanent collection or about the exhibition)

=>

Heinz Mack

Oct 21 — Dec 20, 2025 | Fondation Le Corbusier - Maison La Roche

2. « Download catalogue » to put forward so that they click on it

3. a short explanation about the exhibition/ the artist ?
optional, can we not put it if we want to ?

Almine Rech and Fondation Le Corbusier are pleased to present Heinz Mack's solo exhibition at Maison La Roche in Paris, on view from October 21 to December 20, 2025.

Heinz Mack (born in Lollar, 1931) is one of the primary figures of the art of the second half of the 20th century as he is considered to be a radical and revolutionary artist, who from the 1950s to today has continued to renew his vision and expressivity. The works exhibited at Maison La Roche, architectural icon by Le Corbusier where light itself plays a highly significant role in redefining the coordinates of spaces and volumes, are dated between 1995 and 2021, explore the artist's investigation and redefinition of the relationship between light, color, structure, and space.
